Paint Party Kit Tips

1

Smudging on the canvas is normal. As long as you apply paint correctly, you will not see pencil in your finished product.

2

Leave paints wrapped until the day before/day of use and allow yourself time to unwrap them. Any leftover paint can be stored by adding a little water and rewrapping.

3

Brushes can be reused as long as they are cleaned thoroughly and stored lying flat or with bristles upright. Do not leave in water for long periods.

4

Acrylic paint usually does not come out of fabric once dried. Prepare your work area and clothes before painting.
